

**NOTICE TO ALL COUNTRY RANGE CUSTOMERS REGARDING THE WEIGHT  
DECLARATION ON FROZEN SEAFOOD PRODUCTS**

August 2016

In the past, frozen products which included some frozen water (referred to as glaze) were usually marked with a gross weight (including the glaze) alongside the net weight (excluding the glaze). That practice is no longer permitted under new legislation - The EU Regulation 1169/2011 on the provision of Food Information to Consumers (EU No 1169/2011).

Therefore all such Country Range Brand products affected by this legislation will in the future be marked with the net weight only. This changeover will take place between now and the end of the year.

Please note that there is no change to the products at all, only the method of declaring the weight of the product will change.

To make it easier for customers, please see a reference table below of what products will change to what weights.
